Why NetSuite Loyalty Rewards Solution?

SuiteWorks Tech's NetSuite Loyalty Rewards Solution transforms customer retention by automating your entire rewards cycle within the NetSuite platform.

From earning to redemption, every loyalty transaction syncs instantly with your ERP and CRM, eliminating manual processes and disconnected systems.

Built entirely on NetSuite SuiteCloud, this native SuiteApp empowers businesses to deliver personalized loyalty experiences, track customer engagement, and improve lifetime value — all without leaving NetSuite.

Key Features

Automatically Earn Loyalty Points in NetSuite

Capture & assign loyalty points automatically based on transactions — directly inside NetSuite. Every activity strengthens customer retention.

Redeem Loyalty Points at Checkout

Enable customers to redeem loyalty points instantly at the sales order level for a frictionless experience.

Tier Rewards (Silver, Gold, Platinum)

Award points and promote customers to higher tiers as they spend more — boosting engagement and order values.

Cumulative Spend-Based Rewards

Track total spending over time and upgrade loyal customers with enhanced tier benefits and recognition.

SimpleSat.io Feedback Integration

Link customer feedback with loyalty data in NetSuite to measure satisfaction and fine-tune retention programs.

Real-Time Loyalty Dashboard

Monitor loyalty points, tiers, and redemption history directly from the NetSuite customer record for complete visibility.

100% NetSuite-Native Solution

Built entirely on SuiteCloud for seamless integration — no third-party dependency.

Flexible & Scalable Setup

Configure earning rules, point logic, and tier thresholds as your business evolves.

Integration

The SuiteWorks Loyalty Rewards SuiteApp integrates natively with NetSuite CRM and ERP, syncing every loyalty action in real time.

No external tools are needed — all point transactions, redemptions, and tier updates are fully automated and visible across departments.
