

# REVOLUTIONIZE ORDER PROCESSING WITH AI-DRIVEN NETSUITE ORDER MANAGEMENT

**Cut Manual Effort, Eliminate Errors & Speed Up Order Entry — With SuiteWorks Tech Smart Automation**

## NetSuite Order Management AI Solution

SuiteWorks Tech's NetSuite Order Management AI Solution is a cutting-edge solution designed to revolutionize order management by leveraging the power of artificial intelligence. Built natively on the NetSuite platform, it seamlessly integrates into your existing ERP environment, enabling businesses to create orders effortlessly using simple English inputs.

The AI-powered engine automates customer and item selection, auto-suggests relevant data, and streamlines the entire order creation process, eliminating manual intervention. This innovative solution enhances efficiency, reduces errors, and accelerates order processing, empowering businesses to scale operations and deliver exceptional customer experiences. With the NetSuite Order Management AI Solution, businesses can focus on growth while the SuiteApp handles the complexities of order management, making it an indispensable tool for modern enterprises.

## KEY FEATURES

**1**

Affordable Subscription Cost

## WHY AI ORDER MANAGEMENT

- **Natural Language Processing (NLP) Interface**

Enables users to create orders using simple, conversational language.

- **Voice-Driven Order Entry**

Lets users place orders hands-free through voice commands.

- **AI-Powered Smart Suggestions**

Automatically recommends relevant items or inputs to speed up ordering.

- **Seamless Order Creation**

Streamlines the entire order-building process for faster completion.

- **Real-Time Data Validation**

Instantly checks and verifies data to prevent errors during entry.

- **Intelligent Bulk Order Processing**

Efficiently handles large volumes of orders with automation.

- **Non-NetSuite User Order Submission**

Permits external users to submit orders without accessing NetSuite.

- **Secure Sign-In with One-Time Security Codes**

Protects user accounts with time-sensitive authentication codes.
