

# Streamline Warehouse Operations with NetSuite

## WMS MOBILE LITE SUITEAPP

*Pick, Pack & Ship Faster with Mobile Scanning and Real-Time Inventory – Inside NetSuite*

## SIMPLIFY WAREHOUSE EXECUTION IN NETSUITE

SuiteWorks Tech's **WMS Mobile Lite SuiteApp** extends NetSuite Warehouse Management directly to mobile devices.

Designed for speed and simplicity, it enables warehouse teams to execute daily tasks using **iPhone and Android smartphones** – without additional NetSuite user licenses.

Operate faster, reduce errors, and keep inventory synced in real time – all within your NetSuite ERP.

# KEY FEATURES

## Mobile Picking & Packing

Pick, pack, and ship items directly from mobile devices against one or multiple Sales Orders with instant NetSuite updates.

## Mobile Receiving

Receive inventory by scanning barcodes or QR codes against Purchase Orders using iPhone or Android devices.

## Batch Picking for Multiple Orders

Pick multiple Sales Orders in one run to reduce warehouse movement and increase fulfillment speed.

## Mobile RMA Processing

Process both Sales RMAs and Vendor RMAs from the same mobile interface with full NetSuite sync.

## Barcode & QR Scanning (iOS & Android)

Use mobile camera scanning for fast, accurate picking, receiving, and returns – no special hardware required.

## Real-Time Inventory Sync

All mobile transactions sync instantly with NetSuite, ensuring accurate stock levels and zero manual reconciliation.

## Lot & Serial Number Tracking

Support for lot-numbered and serialized inventory to maintain full traceability.

## No Additional NetSuite Licenses

Warehouse staff can use the mobile app without consuming NetSuite user licenses, keeping costs low.

# BENEFITS

## **Faster Warehouse Operations**

Reduce processing time for picking, packing, and receiving.

## **Improved Inventory Accuracy**

Eliminate manual entry errors with barcode-driven workflows.

## **Lower Operating Costs**

Avoid paper processes and extra NetSuite license expenses.

## **Higher Warehouse Productivity**

Enable teams to execute tasks quickly using simple mobile screens.

## **Scalable Warehouse Execution**

Support single or multi-warehouse environments inside NetSuite.

# Native NetSuite Integration

Built 100% natively on NetSuite, WMS Mobile Lite integrates seamlessly with your ERP.

All warehouse transactions update inventory, fulfillment, and records in real time – delivering a single source of truth across operations and finance.

## Who Can Benefit

Ideal for businesses that need **mobile-first warehouse execution**, including:

- Retail & E-commerce
- Wholesale Distribution
- Manufacturing Warehouses
- 3PL & Logistics
- Pharma & Healthcare Distribution
- Cold Storage & Lot-Controlled Inventory
