

Smarter Invoice Processing Starts with NetSuite Invoice OCR SuiteApp

Automatically Capture, Extract & Map
Invoice Data Inside NetSuite Using
AI-Powered OCR

SuiteWorks Tech's NetSuite Invoice OCR Solution automates vendor invoice processing directly within NetSuite.

Upload invoice PDFs, extract key data using AI-powered OCR, and automatically map the information to the correct NetSuite fields – eliminating manual entry and reducing errors.

Built natively on NetSuite, the solution enables faster, more accurate, and scalable accounts payable automation without third-party integrations.

Key Features

Invoice PDF Upload

Upload vendor invoice PDFs directly into NetSuite for automated processing.

Intelligent OCR Data Extraction

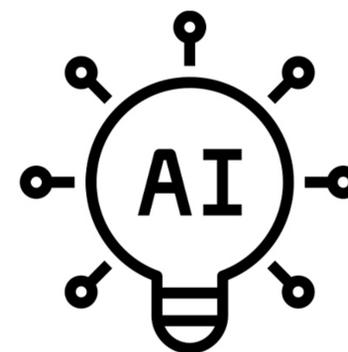

Automatically extract key data including:

- Vendor details
- Invoice number
- Invoice date
- Line items
- Tax amounts
- Totals

AI-Powered Field Mapping

Automatically map extracted data to the correct NetSuite transaction fields with smart AI logic.

Multi-Format Invoice Support

Handles varying vendor invoice layouts without manual template setup or maintenance.

Native NetSuite Integration

Works entirely inside NetSuite, ensuring seamless transaction creation and data consistency.

How It Works
